

CEAT

CATALOGUE

CEAT Sri Lanka is one of the leading tyre manufacturers and tyre exporters in Sri Lanka

Since its establishment in 1992 it has rapidly risen the ranks of the domestic market, currently dominating the bus and truck tyre market with more than 50% market share. It owns two of the largest tyre manufacturing facilities in Sri Lanka that boasts state of the art technology which allows CEAT Sri Lanka to produce tyres that are up to global standards.

We offer both pneumatic cross-ply and radial tyres as well as tubes and flaps (rim-tape) ensuring product of the highest quality which is both durable as well as comfortable. Our promise to provide quality products of the highest level is backed up by the ISO 9001:2015 certification.

CEAT car tyres have been specially crafted with cutting edge technology to uplift quality and security so that you would be able to enjoy your journeys with ultimate comfort. These affordable tyres are the best partner for daily and special journeys with your loved ones to make each journey memorable.

Better contact area
Optimized tyre performance

Improved compound
Noise control
No vibration
Better handling

Interlocked blocks with
uniform contact
Better rolling resistance
for fuel efficiency

Stiffer ribs with
five pitch design
Quieter ride

Quieter ride

Fuel efficient

No vibration

Better handling

Better contact
